Your Ford Dealer Offers  
Solid Values in

## Used Cars

What do we mean by "solid values?" Simply this:

When you buy a Used Car from us you pay just what the car is worth. There has been no inflation in the resale price to take care of an unreasonable trade-in allowance.

The price of the new Ford is very low, and the value high; there is no leeway for excessive trade-in allowances. That is why you can buy a used car from us knowing the price you pay is for the service that the car will give, and nothing else. Our Used Car department is based on the spirit of fair dealing. We would hardly care to risk our reputation by acting otherwise.

Come in today and see some of our bargains in unused transportation. There are several makes now on display.

### LOCAL ITEMS

Rev. D. F. Kemp is motoring to Edmonton on Monday to attend an Anglican meeting held there.

Mr. and Mrs. Wycherly and family will shortly take up residence in the house now occupied by Mr. D. Duncan.

Mr. and Mrs. Martin Hansen spent a few days last week with relations at Turner Valley.

Miss Erna Adams left on Wednesday morning for Saskatchewan where she expects to spend her holidays with her parents.

Mrs. Dave McIntyre entertained the C.W.L. at her home here on Thursday last. There was a fair attendance.

Mr. and Mrs. Marshall McLean, of Washington, have been spending the past week with Mr. and Mrs. W. L. Seaman of this district.

Mr. F. Simington motored to Sylvan Lake on Sunday and on his return brought his wife and family, also Miss Sylvia Seaman, who has been holidaying with them there.

K. R. McLean, of McLean & Anderson, Sight Specialists, 224 8th Avenue West, Calgary, visits the King Drug Store every second Saturday. Make appointments at Drug Store or with Mrs. Carson & Burke.

Mr. Wallace McIntyre, who has been night operator in Vulcan for the past month, has been moved by the C.P.R. to Brockett, Alta., where he is relieving agent.

Mr. A. Mutz returned from Calgary on Friday where he has been a patient in the hospital. His many friends are glad to see him around again.

Miss Hagerman, who has been a nurse in the service of Drs. Carson and Burke, left last week for Calgary where she has accepted a position. Mrs. Burke has taken over the work here.

Miss Eunice McIntyre, Mr. Gordon McIntyre, Mr. Jack Packwood and Miss Jessie Packwood, of Vulcan, also Miss E. Dingley, of Calgary, attended the dance at Chestermere Lake on Friday night.

Chautauqua in Vulcan commences July 29th. Our advertising columns contain references to the excellent and varied programs. Get your season ticket from any member of the committee.

Mrs. A. A. Graham and daughter, Miss Verna, left on Saturday for Calgary where they will spend a few days before journeying on to the coast where they expect to spend the remainder of their holidays.

Mrs. H. Daines and Daughter, Miss Queenie, motored up to Edmonton with friends on Monday where they expect to spend a week visiting Mrs. Daines' daughter, Mrs. Mitchell, of that city.

The new silent policeman at Vulcan's busy corner has other duties besides the regulation of traffic on our streets. By a recent addition to his utility he is enabled to direct travellers to Calgary, Lethbridge, Gleichen and intermediate points.

### IN AND AROUND THE CLUB

Well, here we are again, after a week's absence. Suppose nobody missed us, anyway, but we have to make our bread and jam, so here goes.

Were you at the Stampede? We were and sure had a good time, but not so good as some of the boys.

"Misery Farm seems to have caught on with the boys. We heard quite a few of them bursting into song the other day.

Here's wishing the Band luck at Lethbridge, and as great a reception as they had in Calgary.

Legion No. 2 seem to be winning their softball games. Pity the boys are leaving town so fast.

Saw Frankie Jackson the other day and he claims he has a real boy in Drain from Winnipeg. This boy was in the Olympic finals and Frankie claims Drain can stop Cowie in five rounds. We have our doubts, but we hope to let him have a try this fall, anyway.

Some of the boys did not finish with the Stampede until Monday. But better late than never.

The golfers and the fishermen are very quiet these days. We wonder why?

See our contemporary the Lethbridge Herald asks if playing bridge for a cent a point makes a man a professional—It would soon make most of the boys bankrupt.

Dandelion Green, who had just finished a washing for Mrs. Smith, was asked if her father liked pie.

"Does he? Lawsy, ma'am, he am de most pious man ah eber seen."

Jack crept upstairs with shoes in hand.

Just as the night took wing, And saw his wife a flight above Doing the same darn' thing.

### LOCAL ITEMS

Mr. Jack Buchanan left on Sunday for High River where he expects to spend part of his holidays.

Mr. and Mrs. A. Fitzpatrick, of Reid Hill, are in Calgary this week visiting Mrs. Fitzpatrick's parents.

Mr. Hanson of the Caterpillar Tractor Co., Peoria, Ill. is a business visitor in town with Mr. J. N. Mitchell, local agent.

Mr. and Mrs. A. Alston and children of Windsor, Ontario are spending a few weeks with Mr. and Mrs. Jack Crick of Vulcan district.

Messrs. Roy Ferguson and Max Mutz were fishing over the week end in the Lundbreck district. The Advocate certainly enjoyed the sample of the catch which was so kindly presented.

Mr. J. T. Willard, announces that he will have a plowing demonstration this Friday and Saturday afternoons from 2 to 6 p.m. at Mr. Chas. Grant's farm, just north of town. Come and see the new 22-36 McCormick - Deering tractor pulling a 4 bottom plow.

## CONVENTION CALL UNITED FARMERS

The annual convention of the Bow River U.F.A. Constituency Association will be held in the Town Hall at Gleichen on July 30th and 31st, beginning at 10 o'clock a.m.

The annual dues of the Association have now been fixed at 50 cents per member. As considerable expense will be incurred in holding the convention all Locals who have not already sent in their full membership dues are requested to do so as soon as possible. At the last convention it was pointed out that some secretaries failed to call the meeting for the election of delegates to the convention in sufficient time. All secretaries are urged to attend to this matter in good time this year as failure to do so last year caused considerable confusion.

All those expecting to stop at the hotel in Gleichen are requested to notify promptly Mr. L. Cuthbert, President of the Gleichen Board of Commerce, at Gleichen.

The speakers for the Convention will be E. J. Garland, M.P.; Hon. Perren Baker, Minister of Education; A. B. Claypool, M.L.A., and Mrs. Warr, President of the U.F.W.A. Several entertainment features will be provided by members and the people of Gleichen. On the evening of the 30th a big dance will be held in the Town Hall, the music being supplied by Tom Shaw's orchestra, one of Calgary's best dance orchestras.

Those intending to camp should provide their own tents, etc., the big tent being for general accommodation.

The last Bow River convention at Strathmore was a decided success. Help make this a better one.

The committee in charge of arrangements consists of Mrs. Ruth McBride and Mr. W. M. Ward, Arrowwood.

Communications in regard to accommodation will be attended by Mr. L. Cuthbert, President of the Board of Commerce, Gleichen.

### CROP REPORT

At the time of writing Southern Alberta's crops are in need of rain. Hot weather the past week, culminating in 89 degrees on Sunday, the hottest day of the year to date, has sapped the readily available moisture, and a good general rain right now would do untold good.

"Slightly less favorable than a week ago," is the report here. That is a fairly good summing-up of the situation generally. Crops still look very good on the whole, and the total amount of burning has been small, and this is confined to the northern and eastern fringe on the edge of the 1929 dry belt. But with crops heading and in the late boot, an inch of rain immediately would go a long way towards making the crop much better than the average. Without rain, it is quite possible that the crop will be reduced from a bumper to average.

## TREE PLANTING CAR HERE TUESDAY

The Tree Planting Car of the Canadian Forestry Association, now on its tenth annual tour of the Prairie Provinces, which is working during the month of July in Alberta, was in Vulcan on Tuesday last with a radio concert, a radio talk on trees, and moving pictures in the evening at 8 o'clock. Fitted out with an entirely new set of pictures, including a real good comedy, and other equipment, it attracted a large crowd here. The car was open for any who wished to drop in to discuss their tree problems, and many took advantage of this, with the result that those in charge of the car were busy answering questions. A great deal of interest is being shown this year along this line, more farmers and townspeople realizing the benefits derived.

Mrs. J. B. Ross left on Monday for a vacation in Vancouver and Victoria. Mrs. Polegate, of the Municipal hospital staff, returned on Wednesday night last from Edmonton where she spent her holidays with her sister.

Mr. R. E. Dodds returned from Sylvan Lake on Monday morning. Mrs. Dodds and family will remain at the resort for a while.

### UNITED CHURCH NOTES

Rev. J. N. Brunton will conduct the regular services in the United Church next Sunday morning and evening at the usual hour.

During the months of July and August the morning service and Sunday school will be combined, beginning sharp at 11 o'clock; also service at Berrywater at 2:00 and Red Cross at 3:30 p.m.

A hearty welcome is extended to all to attend these services.

## AT VULCAN TUESDAY EVENING JULY 30th

Vilhjalmur Stefansson Known as the Greatest Living Canadian, will lecture on "The Friendly Arctic," on the Second Night of Chautauqua.

## ESSAY CONTEST ON STEFANSSON

Regulations Governing Competition Sponsored by Canadian Chautauqua Here, July 29 to August 3

Stefansson, whom the world acclaims as the greatest living Canadian, will lecture on the second night of Chautauqua in Vulcan, July 30th.

In order to make the boys and girls familiar with Stefansson and his work in northern Canada, the Canadian Chautauquas and the Macmillan Company of Canada are co-operating in an essay contest for the boys and girls in the towns and cities in which Stefansson will appear.

The rules and regulations under which the contest will be conducted are listed below.

The Canadian Chautauquas will be glad to give further information to contestants.

1. Title of the Essay. The Associated Press has called Vilhjalmur Stefansson "The greatest living Canadian." The title of the essay shall be "Why is Stefansson the greatest living Canadian?"

2. Contestants. Any boy or girl sixteen years of age or under, living in the Chautauqua community in which Stefansson shall lecture during the summer of 1929, may be a candidate in the essay contest. The essay shall be accompanied by a written declaration by some responsible person that the manuscript is the unaided work of the contestant.

3. Length. The essay shall not exceed 400 words in length.

4. Prizes. Three prizes, first, second and third, will be presented to the contestants submitting the three best essays in each Chautauqua community. The prizes shall consist each of one of Stefansson's books, donated for the purpose of this contest by the Macmillan Company of Canada, Toronto.

5. Judges. The essays for each community shall be judged and the prize winners determined by three citizens of each community. The report of the judges shall be final.

6. Form—

(a) The essays shall be written on one side of the paper only.

(b) They should be written as neatly as possible but hand-writing will not be considered in determining the winners.

(c) Candidates should attach to the essay a list of the articles or books which they have consulted in the preparation of the essay.

(d) If convenient to the contestant, the essay should be written on foolscap.

7. Names of Contestants. The following rule must be observed: No name or other mark of identification shall be written on any page of the essay. The name of the contestant shall be written on a separate piece of paper, sealed in an envelope, and the envelope pinned to the essay. The essay shall then be mailed to "The Director," "The Canadian Chautauquas, General Delivery, in the case of each town. Violation of this or any other regulation shall automatically rule out an essay.

8. Date. The essays should reach the director of the Canadian Chautauquas in each town not later than noon, two days before the opening of the Chautauqua in that community. That is, if Chautauqua opens on Wednesday, the essays should reach the director by 12:00 o'clock noon on Monday. Essays submitted after that time will not be considered. (Note: It is expected that the winners will be determined in time to have the prizes presented by Stefansson the evening of his lecture, and autographed by him.)

9. Western Canada Grand Prize. The essays taking First Prize in each community shall be mailed by the essay committee to the Canadian Chautauquas, 410 Burns Building, Calgary, Alberta. These first prize

(Continued on Back Page)

## VULCAN'S PRIZE BAND AGAIN SUCCESSFUL

Congratulations are in order for the Vulcan band, the members of which, fresh from their recent success at Calgary, journeyed to Lethbridge yesterday and won the first prize in the band competition at the Exhibition there.

## SCHOOL FAIR DISTRICT IS INAUGURATED

The following schools have organized to form a school fair district: Reid Hill, Marshall, Prospect Slope, Sunny Glen, Gerrard and Harmony.

Officers

President—Alex McIntyre, Vice-President—O. Hickman, Sec.-Treas.—M. L. Todd, Executive (representing each district)—B. Myers, P. Bowie, A. Fitzpatrick, T. Campbell, Henry Horne, Mr. Close.

The fair will be held in the Reid Hill Community Hall on Sept. 19.

We hope that parents will encourage the children to care for their gardens during the holidays so that we may have some nice exhibits.

### WEDDING BELLS

ANDREWS—MUNDAY

On Thursday, July 11th, at Vulcan, Miss Florabel Margaret, second daughter of Mr. and Mrs. Parks W. Munday, and Gordon Earle, second son of Mr. and Mrs. Robert H. Andrews, were united in the bonds of holy matrimony. Rev. J. N. Brunton officiating. The wedding took place in the presence of near relatives and friends. The bride carried a bouquet of bridal roses.

Miss Ellen, sister of the groom, acted as bridesmaid, and Master Frederick, brother of the groom, as best man. The happy couple will make their home at Vulcan. Both parties are well known in town and district and their many friends wish them every success.

MacLEOD—MacFARLAND

On Wednesday, July 10th, at the home of the bride's parents, Mr. and Mrs. J. H. MacFarland, a quiet wedding was solemnized when their youngest daughter, Pearl Anne, was united in the bonds of matrimony to Mr. Norman Anderson MacLeod, son of Rev. Mr. MacLeod, secretary of the Baptist Union, Toronto.

Rev. J. N. Brunton performed the ceremony in the presence of a large number of friends and relatives.

Hearty good wishes are extended by the many friends of the happy couple, in which the Advocate joins.

Among the guests were: Miss Margaret Denton, Cleveland, Ohio; Mr. and Mrs. J. R. Duguid and daughters Maisee, Barbara, Constance, Dorothy, Helen, and Jimmy; Mr. and Mrs. C. G. Steiner and Algora, Fay and Carl; Mr. and Mrs. L. C. MacFarland and Billy, Bert, David and Margaret; Mr. and Mrs. H. B. Jones and Ruthen, Marylee and Karan, of Olds; Miss Constance MacFarland, Chicago; Mr. Edwin MacFarland; Rev. Mr. John Farquhar, Brant; Mr. and Mrs. A. H. Tharlie and Howard; Mr. and Mrs. Jack Phillips; Mr. and Mrs. Wm. Ruid, Mack and Ruth, Rockyford; Mrs. Reece Kenney, Rockyford; Mr. E. W. Pust and Miss Emily Pust, Rockyford; Mr. and Mrs. J. L. Plant and family; Mr. Howard Smith; Mr. Lee Richardson; Mr. Richard McKay; Mr. Wm. White; Mr. Omer Gingras; Mr. Arthur Moffat.

## SOFTBALL GAMES ATTRACT FANS

The new schedule was commenced last week but the many Vulcan visitors at the Stampede made it difficult to assemble the teams; however, the games were played and enjoyed.

The fun is still going on and the games since our last issue resulted as follows:

Thursday—Bearcats beat Pittman's, Friday—Legion No. 2 beat Nomads, Monday—Legion No. 1 beat Bricklayers.

Tuesday: No Game, Wednesday: Bankers beat Bearcats, and Mechanics beat Pittmans Sharks.

### LOCAL ITEMS

Mr. L. Williams, of Okotoks, has accepted the position with the C.P.R. here as night operator.

Miss Roberta Todd, who won the most points at the school fair, left on Saturday night for Claresholm to attend the short course given there.

Mr. and Mrs. George Green and son, Willard, Miss Irene Fox and Mr. George Seaman left on Sunday morning by car for Highwood where they expect to spend a week fishing.

### CHURCH OF CHRIST NEWS

10:30 a.m., Morning Worship and Communion. Sermon, "The Seven Pillars of Unity." 11:30 a.m., Bible School, 8 p.m., Evening Evangelistic Services. Sermon, "The Greatest Question in the World." A cordial invitation is extended to everyone not now identified with some church to attend these services.

GEORGE A. ROSS, Pastor.

## NOTES AND COMMENTS

Now that the eminent young songstress, Marion Talley, has started farming, we expect any day to hear her sing out to the hired man that the cows are in the clover.

"Chestnuts," will say the hired man "I knew that before you were born."

Lloyd George has some caustic remarks to make about that Liberal member who accepted a portfolio in the Labor Cabinet. L. G. realizes now how Asquith felt on one historic occasion.

What we like about Lindbergh exploits is this: He said he would leave a certain place, and arrive at a certain place without stop, and he did. We knew a Messenger once—but that is another story.

The Central powers are now paying reparations on account of passengers drowned or injured by the torpedoing of the Lusitania. Medals struck to celebrate the event will not be accepted.

A speaker at an ecclesiastical conference said that decline of interest in the Bible was "a challenge to the churches." One way to stimulate interest is to have the official censor ban it.

American corporations that send proxy forms to Canadian shareholders and enclose self-addressed envelopes bearing U.S. stamps should be told that Canada is not in the United States.

If you would know what it means to be without a shred of bias or prejudice, imagine yourself a retail grocer or dry goods merchant welcoming a chain store starting up a rival business in your town.

Mr. George Audley of Birkdale Lodge, Southport, England, denies that he is the donor of the anonymous gift of \$105,000 to the King Edward Hospital, London. We desire to associate our own name with that denial.

"What is front-page stuff?" asks a contemporary. Well, suppose there was a world conference to decide upon something of momentous importance, and suppose the conference did come to a decision, and suppose that during the conference one delegate called another a liar and a fight ensued. The fight would be front page stuff, continued on column 1, page 2.

The decision of world-wide importance would appear at the bottom of column 6, page 37, next advertising matter.

Mrs. Hoover entertained the negro wife of a negro congressman to tea and the South is solid once more.

Tea seems destined to create national as well as international romps. An experienced chauffeur is authority for the statement that blowing the horn is a sign of nervousness. Not so sure of that. If he wants to pass you, it signifies nerve.

"Alberta is the one remaining virgin province of the Dominion, but it will not be so for long unless the business men and farmers wake up to the weed situation," Don H. Bark, superintendent of the C.P.R. experimental farm at Brooks, and a member of the weed board of Alberta, told Kiwanians at their regular Thursday luncheon in the Palliser Hotel.

The weed situation in this province is such that it is of interest to every man, woman and child, because all are directly or indirectly dependent on agriculture," Mr. Bark stated. He explained that the present week was being observed in Alberta as weed eradication week.

## COMING TO VULCAN

Constance Neville-Johns  
Gilled Australian Lecturer appearing on the Third Afternoon of Chautauque.

Dr. N. A. MacKintosh of Queen's University, states that at a meeting in Ottawa of Canadian and United States students of social science, plans were laid for studying the problem of settlement in Canada. The programme will be under the general supervision and financial assistance of the American Geographical Society. Two of the committee members are Duncan McArthur, professor of history in Queen's University and Dr. W. J. Rutherford, dean of the school of agriculture in the University of Saskatchewan.

"Well, my dear," he said, "I guess you were right last night when you said that there were burglars in the house." "Why?" asked his wife. "What has changed your mind?" "Because all the money I had in my pockets when I went to bed is gone." "Well, if you had been brave," retorted his wife, "and got up and shot the wretch you might have saved your money." "Possibly," was the reply. "But then I should have been a widower."

## LACK OF CONTROL

Heredity and lack of parental control were given as the chief causes for the prevalence of juvenile crime, in a paper read before the Chief Constables' association convention at Calgary by Inspector E. W. Bavin, in charge of "C" Division, Alberta Provincial Police, on "The Youthful Criminal." The inspector deprecated the frequently-made assertion that motion pictures in general tended to promote juvenile crime, but expressed the view that much of the literature imported into Canada from the south was unfit for some youths adopting a career of crime.

Corporal punishment was mentioned by Inspector Bavin as a highly effective means of dealing with recidivists. He also spoke of the probation system as producing successful results. In his paper the inspector went at some length into the various phases of his subject, and in conclusion submitted that the introduction into the schools of a system of teaching children to play real games would have the greatest effect in reducing criminal records to a minimum.

"In gathering data for this paper," said the inspector, "I have been in communication with the various prisons in different provinces of the Dominion and states of the union. Records show that there are a greater number of convicted prisoners under the age of 30 than there are above that age and that there is an alarming number between the ages of 17 and 23. This is the point that has to be dealt with. Touching first of all on the cause—lack of parental control is the fundamental reason with the majority of cases. The youth of today has developed an advanced knowledge of the world and its ways, consequently some parents may have feelings of inferiority. Idleness is a sure cause of trouble. Commencing at the schools, there is too much spare time after school hours in which the boys are idle. There is insufficient training in athletics. How many of you have found a youth who has fallen into the hands of the police who has previously made any showing in athletics? I would venture to say that the exceptions are almost negligible."

## Drain Your Crank Case

and refill it frequently with fresh oil. The result will be apparent in the smoother operation of your engine. But be sure to use the right quality and the right grade of oil. To be safe make this filling station your headquarters. You'll like our oils and gas, and our friendly, helpful service.

## End Your Foot Trouble

## Free Foot Comfort Demonstration

JULY 27th to 29th

by an Expert from Toronto

Through the courtesy of Dr. Wm. M. Scholl, the famous foot authority, we will have at our store, on the above date, a Foot Comfort Expert from his own staff, for the special benefit of our patrons.

This Expert is thoroughly trained in Dr. Scholl's scientific methods of correction. He will make an analysis of your foot trouble over your stockinged feet, and show you, from the Podo-graph prints he makes of your feet, just what ails them. He'll then demonstrate how the latest improved Dr. Scholl Foot Comfort Appliances or Remedy relieves you of every foot pain, and enables you to walk with perfect comfort.

No charge is made for this valuable service. Don't miss coming here on the above date.

TO PHYSICIANS—You are invited to refer or bring your foot troubled patients in during this demonstration. The latest Dr. Scholl Appliances will be free of charge.

## FRIEND MAGPIE

"Next to the crow and possibly before it, the magpie is the most persistent nest robber in the bird world. No eggs nor young birds are safe from it, and where it is numerous it is one of the important determining factors in limiting the increase of the smaller birds. It even enters poultry yards and hen coops, timing its visit nicely when the owner's eyes are turned elsewhere, and chicks and eggs are its prey. Occasionally it attacks horses and cattle, even to their death, perching on the foolishly unresisting animals' backs and enlarging saddle galls, fresh brand marks and other open sores to serious proportions. The animals for some unaccountable reason, seem to make no objection and even appear to enjoy the sensation of being pecked to death. A few magpies may be picturesque accompaniment of the landscape, but even those can only be enjoyed at a price and certainly any great number of them in a neighborhood are to be discouraged by the use of gun and trap.

## WHO WOULD BELIEVE IT

Who would believe that there are 423 pawnbrokers in the Dominion of Canada or that 202 coachmen continued to exist in this age of the almost universal adoption of the motor car? There are, it appears, not less than 627 bootblacks in Canada, 67 private detectives, 1,207 undertakers, 648 grave diggers, 262 actresses, 528 professional baseball and hockey players 229 individuals are engaged in the manufacture of brushes and brooms. There are still 3,008 blacksmiths in the Dominion, while physicians and surgeons number 8,554; dentists, 3126 engineers, 12,814; professional painters, 108; teachers, 11,042; judges, 337; lawyers and notaries, 7,145; clergymen, 11,654; and editors and reporters, 1,666.—Simcoe Reformer.

## WESTERN LIFE

While the wealth of Canada is held mainly in the East, the great per capita wealth is in the West. The average citizen in Ontario has less wealth than the average in B.C., Alberta or Saskatchewan. B. C. has the highest per capita wealth with \$4032; Alberta is next with \$3660, then Saskatchewan with \$3586. The other provinces trail behind.

It is reported at St. Catharines Ont. that the Jordan Wine Company is about to become the biggest winery in the Dominion by taking over the Welch Grape Juice plant. Probably the making of non-fermented grape juice will be dropped; the demand for Ontario wines is said to be so great that officials of the company are considering shipment in tank cars.

## BULLETIN BOARD FOR NATION

A Lethbridge church bulletin board carries messages that start people thinking about the spiritual side of life. Canada as a nation might emulate this practise by placing, at every border highway a striking message to tourists about Canada, its extent, its resources, and its possibilities—facts about Canada should stare every visitor in the face. While most tourists come to us for pleasure, we ought to send them away with information about Canada that will lodge in their minds. We do not mean that Canada should blow a loud trumpet, but merely that we should tell the outsider as he crosses the border the truth about our country. The church signboard makes the pedestrian think as he looks upon the message on his way down town, and the Canada sign at border points would make tourists better acquainted with the country they are visiting, and they would leave us with some truths to broadcast when they were talking of their trip on their return to their homes.—Lethbridge Herald.

## IN THE COUNTRY

"I reckon," said the first farmer, "that I get up earlier than anybody in the neighborhood. I am always up before three in the morning."

The second farmer said he was always up before then and had part of the chores done. The first farmer thought he was a liar and decided to find out. A few mornings after he got up at two o'clock and went to the neighbor's house. He rapped at the back door, and the woman of the house opened it.

"Where is your husband?" asked the farmer, expecting to find his neighbor in bed.

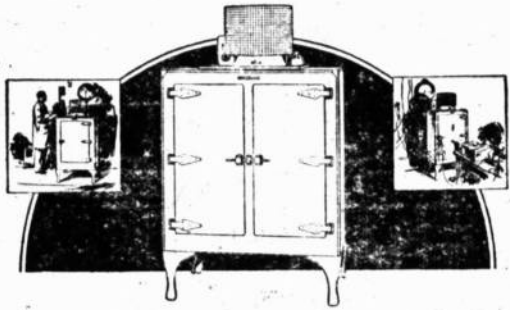

"He was around here early in the morning," answered the wife, "but I don't where he is now."

## THAT NEW BUG

A new bug of enormous size which has been diagnosed as a variety of sheep tick, has appeared in Lomond and attacked the leg of the lonely pet lamb in the village. It took the combined efforts of two neighboring surgeons with crowbars for forceps to pry it from its tentacular moorings on the poor lambkin's leg. As a consequence the proverbial little lamb is not able to keep up with Mary now. This is true with most Marys nowadays. The W. I. sent flowers.—Lomond Press.

Dr. N. A. MacKintosh of Queen's University, states that at a meeting in Ottawa of Canadian and United States students of social science, plans were laid for studying the problem of settlement in Canada. The programme will be under the general supervision and financial assistance of the American Geographical Society. Two of the committee members are Duncan McArthur, professor of history in Queen's University and Dr. W. J. Rutherford, dean of the school of agriculture in the University of Saskatchewan.

DISTINCTIVELY  
ELECTRICGENERAL ELECTRIC  
Refrigerator

THE General Electric Refrigerator, designed and built after fifteen years of painstaking development by the Research Laboratories, is an electrical achievement and the outstanding electric refrigerator.

More than a quarter of a million General Electric Refrigerators are in use today and not one of them has cost the owner a dollar for service or repairs. This refrigerator never needs to be oiled and is so quiet you hardly know when the motor is running.

See the new all-steel models at our show room and examine the easily accessible temperature control which governs the speed of freezing ice cubes or frozen desserts. ER-1429XX

## LOST HIS LICENSE

First cancellation of a driver's license was made by Magistrate George B. McLeod, in Edmonton Friday, when Robert W. Heron was charged with operating a car while intoxicated.

Heron and his friends pleaded that he was susceptible to nervous or fainting spells and that he was in the throes of one of these spells when Constable Hill arrested him for driving a car while intoxicated.

Heron fainted while in the witness stand, and court was adjourned for several minutes until he recovered. He said that he had only four glasses of beer and wasn't intoxicated.

Crown prosecutor S. T. Bigelow argued that Heron, in his present physical condition, would be unfit to operate a car when he had four glasses of beer, whereas the average man perhaps would not feel any adverse effects.

"In any case his driver's license will be cancelled," Magistrate McLeod ruled.

## COMING TO VULCAN

Major John J. Hill

Will lecture on South Africa on the Sixth Afternoon of Chautauquas. Formerly on the engineering staff of the late Sir Cecil Rhodes.

## FISH AND GAME ASSO

Claresholm Fish and Game branch asks for the creation of a 100,000 acre game preserve in the Porcupine Hills Reserve to be patrolled by game guardians.

Drumheller Valley branch asks that the government abolish laws making the shooting of game on Sundays illegal. Several other branches echo this sentiment.

Another demand is that all cats should be licensed.

Many requests have come in that the government provide game farms.

Prospects for agriculture this year are considered to be generally favorable, and it is safe to say that there will be a fair setting of all fruits in every district this season.

The Dominion Fisheries Department announces that commercial fishing at Lakes in the northern portion of the province of Alberta has been very satisfactory. At Lac La Bache, 125 fishermen are engaged and have taken out approximately 250,000 pounds of fish during the first 14 days of the season.

## SOY BEANS POOR FEED

Soy beans make soft pork—a bugbear in the meat trade. The Industrial and Development Council of Canadian Meat Packers issued a serious warning on this point. As soy fed hogs cannot be distinguished when alive, packers may, if the practice becomes common, have to discount in price all hogs from districts where soy beans are used as hog feed. No success has followed experiments to make soy fed hogs yield a firm carcass. Even with 85 per cent. of barley and 15 per cent. of soy beans, the effort has failed. Fed in the form of green pasture, hogged down, fed whole, or ground as meal, the effect is the same—poor quality pork that nobody wants. The packers' warning to Canadian farmers who may unwittingly use soy beans for raising hogs is: "Stop before you start."—Western Producer.

## MEETS THE WEST

A week ago Sunday a piece of gravel flew through the window of my car and nearly hit me in the eye. It raised an unbecoming lump on my left temple and I still bear a grudge against the unknown driver of the other car. After discovering that my organ of sight still remained intact I made another discovery—one of the plate glass windows in the back of the car had received a neat crack which altogether damaged its attractiveness. It wasn't a very successful drive and from then on I adopted one of the characteristics reputed to belong to the ostrich family, and ducked my head whenever another speed fiend hove into sight.

The following Sunday I absolutely vetoed any jaunts along the gravelled road and was quite content to spend a peaceful afternoon with a book. However family persuasion overcame my determination and after scanning the sky for any sign of rain we decided to forsake the highways and try some of the byways instead. We went south and through the Indian Reserve, a road familiar to every Calgarian, and of course got in the perfect maze of trails which exist. The car rocked to and fro, we spilled a bottle of cream and when we arrived at a spot to picnic Joan discovered to her horror that she had her foot in a box of strawberries we had carefully prepared. We found a gorgeous place to make camp. The children went wading and Roger slipped on a rock and emerged dripping, so he spent a considerable time wrapped in the blanket from the car while his clothes dried. Several Indians went by on horseback who laughed and pointed with great amusement at the small boy running around in the garb usually worn by the Indian woman. Roger didn't know whether to be pleased or frightened, but he complained unceasingly that "the blanket itched." I imagine it was worse than winter woolies for the young man.

Later, as the sun became low the mosquitoes got very bad and it didn't take us long to decide to move on. Perhaps I neglected to say at the beginning that our family is rather new to Sunny Alberta, so much so that we are looking forward to the Stampede with great hope and expectation. Since we had entered the reserve from the south we decided to go still further in that direction before going home and explore a little. We went up hill and down dale, took first a trail to the left and then one to the right until I began to wish we had been as wise as the lady in the Greek fairy tale and had left a thread to follow back. Each new road aroused the imp of speculation in our breasts as to what it would lead us to, until finally the one we were following led us to such a scene of beauty that, well, I'll speak for myself—I simply gasped. A lovely little lake spread its beauty before me, nestling in a huge bowl of the earth it looked as though it would some day surge to the very top. The trees came to the very edge of it in many places and many picturesque farmhouses dotted the landscape; the clear blue sky above and the last red lights of the sun sinking low in the west were no less brilliantly reflected in the still waters. It was so still and quiet—so very peaceful that I thought it might have been a mirage. Of course somebody came forward with that rather overworked quotation,

"Where every prospect pleases  
And only man is vile."  
and I agreed heartily that it had never been so appropriate.

A few days later I was relating my "find" to a real Westerner only to learn that my beauty spot is known as "Red Deer Lake" and to hear it spoken of rather disparagingly as a slough.

Perhaps the next time I will be prepared and may notice its sloughish qualities; anyhow I had my moment of beauty which shan't forget for a long time. —G. V.

## SUPER SALESMAN

A young man called at the house of a celebrated diagnostician and asked to see the doctor.

"Have you an appointment?" the office nurse asked.

"No I haven't," the young man replied.

The nurse consulted the doctor's appointment list.

"I think I can work you in after the next patient leaves," she said. "So please go inside that room and take your clothes off."

"Take my clothes off!" the young man exclaimed, "what for?"

"The doctor has made it an absolute rule not to see anybody unless that is done," the nurse said firmly.

"But I don't want to take my clothes off," the young man insisted.

"Then, I'm sorry, but you can't see the doctor," the nurse said.

"Well, if that's the case, I'm game," the young man said.

A few moments later the doctor entered the room and found the young man waiting him, stark naked.

"Well, sir," the doctor said, "what seems to be your trouble?"

"Doctor," the young man replied, "I have called to see if you would renew your wife's subscription to the Ladies' Home Journal."

McLAUGHLIN-BUICK

## DRIVE IT

You need only drive the Marquette to realize that McLaughlin-Buick craftsmanship has created an entirely new standard by which all moderate-priced cars must now be judged.

In tests at the General Motors Proving Ground, the Marquette displayed abilities placing it indisputably at the head of its field. You will enjoy its extraordinary responsiveness—its spontaneous flow of power that never hints at strain. You will feel that you can call on

the Marquette to do anything within reason, and that it will respond brilliantly.

In addition, Marquette offers beauty that is conspicuous for good taste in line and color . . . exceptional closed-car comfort and luxury in Bodies by Fisher . . . roadability that is the result of inherent balance and poise . . . and the added measure of quality for which Canada looks in a McLaughlin-Buick-built car.

See the Marquette at our showrooms. Drive it and learn what superlative performance is now offered in a car priced within the reach of thousands. MA 379B

Vol. 2. VULCAN, JULY 18, 1929 No. 11

## Vulcan Herald

Published in the interests of the People of Vulcan and the Farmers of the District.

J. T. WILLARD, Editor.

### AN HONOR

We feel that we represent the farmers of this community, and we always consider it an honor to be consulted about agricultural problems.

### KEEP 'EM SWEET

A mighty good way to keep your milk cans from acquiring a mouldy odor even tho' the lid may be on tight is to put some crumpled newspapers in them. The newspapers take up the moisture and absorb all odor.

### TRY THIS ONE

Artistic was Bobby McVickers. His wind-shield was covered with stickers. His view was so bad. A smash-up he had.

## OUR DUTY

The Harvester Company maintains huge stocks of repair parts at its branches. The dealer keeps complete stocks of all the common parts. Some of these are not called for once a year, but we must keep them to maintain our service. It costs us money to have them, but we consider it our duty to our customers.

### DEERING

Here's a little advice to the young men: The average college student puts in only about 650 hours of actual study per term of nine months. Anyone who really wants to gain an education, can do so by studying that many hours in his own home after work.

### A COOK IS A CHARITABLE INSTITUTION

providing food and shelter for needy policemen.

# ASK ANOTHER!

Every day is made up of dozens of little decisions. And so many of them concern things—what sort of breakfast food to serve?—how to wash a chifton frock?—whether glass dishes should be colored or crystal?—what sort of oil to use in the automobile?—whether to travel by rail, boat or airplane?

These questions you must answer to suit yourself, for your friends and your family have their own ideas and you want exactly what fits your case.

Read the advertisements, Send for the booklets offered. Here is practical, modern, up-to-the-minute information about everything imaginable. The booklets (and the advertisements too) are planned and written by experts. Authorities on food chemistry, fashions, domestic science, architecture, interior decoration are answering your very questions. Advertisers these days make it their business to understand thoroughly all the different phases of their subject.

## WEEDS WEEDS WEEDS HINTS FOR TOURISTS

One of the chief reasons why the weed menace has increased with each succeeding year is the undeniable fact that in the past vast quantities of weeds have been allowed to ripen on roadsides, in school yards, on waste and vacant lands, along our lanes and headlands and in our fence corners, and odd spots here and there on the farm.

The following are the number of seeds produced by single plants of average size in one season: Canada Thistle, 3,500; Curled or Yellow Dock, 17,000; Common Ragweed, 5,000; Chicory, 3,000; Perennial Sow Thistle, 2,000; Wild Lettuce, 8,000; Stinkweed, 20,000. Every weed that is allowed to mature produces at least 1,000 seeds and most of them ripen several thousand seeds. In the past weeds by the millions have been allowed to mature in this province and scatter their billions of seeds far and wide. Every municipality, every farmer, every land owner in town or country must unite in the war against weeds and see that they are cut early and often enough to prevent them from seeding.

Promptness is necessary to prevent all weeds from seeding. Many weeds if cut after they have passed full bloom, will mature their seeds.

United action is required so that no weeds be left uncut on roadsides, vacant lands, railway tracks, school yards or waste places. Every patch of weeds that is left uncut is a menace to the farms and gardens in the neighborhood, an eyesore and a costly monument of neglect, signifying that someone has failed to do his duty to his municipality and to his neighbors.

Community pride and regard for the rights of others should serve as incentives to prompt and united action on the part of all concerned. When such is secured the weed menace will be much decreased, our farms will be cleaner and more profitable and our highways and byways will become attractive beauty spots, indicating individual and municipal pride and prosperity.

The Medicine Hat Fish and Game Association is urging that an intensive campaign be conducted regarding the crow and magpie menace. It suggests that an official be appointed to attend strictly to organizing campaigns in this matter.

### I. W. SOLLOWAY

"Investors and speculators in the East have quite decidedly changed their views in regard to the oil industry in Alberta, and especially has this been the case with Turner Valley, for the simple reason that drilling there for the past few years has proven that there is real wealth under the surface of the ground," declared I. W. C. Solloway, president of Solloway, Mills and Company, Toronto, in an interview with The Albertan recently.

"Putting money into Turner Valley is no longer looked upon as a practise to be compared with the more treacherous stocks that are to be bought on the leading mining and oil markets of the continent. Rather, it is a commonly accepted fact that when any degree of common sense is exercised in the purchase of oil stocks, profits will be forthcoming sooner or later.

"I can assure the people of Alberta that brokerage firms themselves, as well as the investing public of Toronto, Montreal and other financial centres of the East from now on will put double the money in development work and financial undertakings to prove further possibilities in Turner Valley than they have ever put before.

"Up to a few weeks ago the people were skeptical about oils out here in the West. But today, when one walks into the leading brokerage offices and stock exchanges throughout the East, he is amazed at the loss of interest in the mining stocks and the increasing interest that is being taken in oil stocks.

"And I hope that the people of this province will not forget that the rapid development of the oil industry will engender more extensive progress still in the oil fields," Mr. Solloway continued. People are trekking into the province from all parts of the continent because they hear of the oil wealth that is being liberated here, and among these people are prospectors in all lines of development.

"I can foresee the day when Calgary and Alberta will become a great industrial centre—started primarily from the oil discovery in Turner Valley," he continued.

He went on to explain that this was a very slack season as far as the oil market was concerned for the simple reason that those who put most money into oil were now using their surplus money in other lines of activity. "The farmer, the contractor, the builder and the businessman during the summer months considers it a natural course of his business to draw his money out of stocks in the spring of the year, and after using the money during the summer, invest it again in the fall," he concluded.

## WEEDS WEEDS WEEDS HINTS FOR TOURISTS

The Canadian Hygiene Club has its mind on the health of tourists and city people who adventure in the wilds. It furnishes a few warnings and admonitions to holiday seekers, so that they will be able to stand up to the rigors of vacation time:

Don't scratch mosquito bites, don't pick poison ivy, watch your milk and water supplies and get plenty of sun but not too much at once, are some of the admonitions. And here is an emergency medical kit that everyone is advised to pack in the suit-case:

3 or 4 bandages, 2 or 3 inches wide.  
1/4 pound of sterile gauze.  
1 ounce of absorbent cotton.  
1 or 2 ounces of tincture of iodine.  
1 small roll of adhesive plaster about 1 inch wide.  
1 ounce of boracic acid.  
1 or 2 ounces of bicarbonate of soda.

A hot water bottle.  
2 ounces of aromatic spirits of ammonia.

For mosquitoes, three things should be remembered, netting, liquid ammonia, and coal oil.

The netting shuts them out, the liquid ammonia, applied promptly to a bite, frequently neutralizes the poison and prevents subsequent itching, and the coal oil, put in very small quantities on top of water in rain barrels, little ponds, etc., prevent the mosquito larvae from developing into mosquitoes. Furthermore, certain aromatic preparations such as spirits of camphor, menthol and oil of citronella may be applied to exposed parts of the body to keep these pests away.

And do not be on the go all the time during your holiday. Take some reading matter with you and spend part of the day, particularly in the middle of the day, in the shade of the

trees, in your hammock, or in an easy chair, or lying on a rug on the ground. Do not dance every night during your holiday and expect to come home rested and refreshed for the balance of the year.

## TORONTO NOTES E P

The Toronto Mail and Empire secured a short interview with Professor Carlyle en route to England. It prints the following:

"Professor Carlyle, the manager of the E. P. ranch in Alberta, has gone to England to discuss ranch business with the Prince of Wales, the owner of the property, and to select live stock for shipment to Canada. 'We are going to stock up with more short horns,' Prof. Carlyle said on the eve of his departure, 'and while I am over there I intend to look at some sheep bred on His Royal Highness's British farms, with a view to importing some of them to the foothills for breeding purposes. We believe,' he added, 'that there is a great future for the sheep industry in the west.'

"The Prince of Wales acquired the E. P. ranch, which is situated about 25 miles southwest of High River, during his tour in Canada in 1920. He placed on his property, soon afterwards, a good class of shorthorn cattle and a flock of Shropshire sheep, all of which he sent to this country from Great Britain. He has since added to the livestock on the ranch. The Prince of Wales has made, during his several visits to Canada, short stays on his Alberta ranch, and, by all accounts, he has thoroughly enjoyed the opportunities afforded him there for relaxation after the strain of the duties that his high position imposes on him for exercise that sometimes has taken the form of hard work in the fields, and for indulgence in out-

door sports, such as riding, fishing and shooting. Animals from the E. P. ranch have won prizes at the principal live stock exhibitions in Canada and in the United States, and some animals have been sold to improve the quality of the stock on the properties of breeders in this country.

"Whether or not His Royal Highness has found his venture into the live stock industry in Alberta a profitable one has not been announced. Whether he has or not, he did not acquire the E. P. ranch primarily with the object of making money from it. He recognized when he visited Canada in 1920, that Alberta was naturally well adapted for the raising of beef cattle and sheep and for dairying. He desired to help to promote the development of those industries by doing something to improve the quality of the live stock in that part of the Dominion. He acted upon that desire when he bought the E. P. ranch and stocked it with pure-bred animals and apparently he intends to continue the good work."

## WINDSOR CASTLE

"King George has returned this spring to Windsor Castle—a happy sign of increasing strength, for this home of Kings, since William the Conqueror, is no chosen place for the sick."

For nine hundred years the history of Windsor Castle has been the history of England. But during King George's reign it has been used only for state occasions, for receptions of visiting Kings, princes and potentates.

Queen Victoria dearly loved Windsor, and after the death of her Consort, divided her time between Windsor and Scotland. She decreed that everything at Windsor should be consecrated to the memory of Albert,

and nothing should be altered.

With the coming of King Edward, a new order was established. Change was inevitable with Edward, and reverently but ruthlessly he brought about his change. First, the invasion of the bathroom. Not one bathroom but many. He was as insistent in these modern luxuries for Windsor as Queen Victoria had been opposed.

He began to alter drawing rooms and corridors, bringing museum pieces forth from obscurity, bringing light into darkness and order out of chaos. There was an end to Windsor as a place of mourning and retirement. Banquets, ceremonies, life and activity brightened the castle.

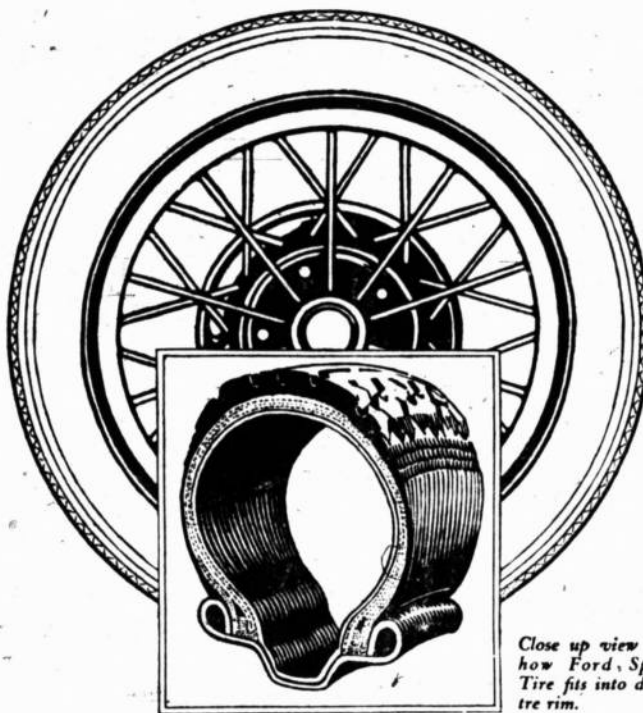

Queen Mary completed the interior changes started by King Edward. Only last year, the last vestige of wisteria colored paper beloved by Queen Victoria disappeared.

It is fitting that King George should spend his convalescence days in the quiet and seclusion at Windsor Castle. This is the most beloved and regal of all the King's homes—with its nine hundred years of Kingly history.

## THE FORD CAR STEEL SPOKE WHEELS

Close up view showing how Ford's Specified Tire fits into drop centre rim.

## Greater Strength and Durability

THE Ford Steel Spoke (Drop Centre) wheel is an advanced step in engineering and the result of exhaustive experimental tests. It is smart in appearance, extra strong, having a lasting finish, easy to clean and provides a simple method for mounting and demounting the tire without tools and in a fraction of the time previously required.

The steel rods or spokes, 1/4" in diameter, are electrically welded to rim and hub shell. The finish is enamel baked on steel. Possessing great resiliency and being one solid piece, these wheels have a sturdiness not approached by any other type.

The Ford wheel eliminates loose, squeaking spokes and rims, pinched tubes, chipped or peeling finish, necessity of tire flap, misalignment of tires due to carelessly mounted rims, and a host of other wheel and tire ills formerly encountered. It permits of easy steering and no drumming sound is created by the wind.

There is an enormous amount of careful work necessary to build strength and service into the Ford Steel Spoke wheel, and the results justify the engineering study and skill devoted to this feature of the Ford car.

Drive it Yourself—there is no Better Test

### LOCAL ITEMS

Mr. and Mrs. G. Munroe and boys  
were Calgary visitors last week.  
Mr. Joe Taylor spent a few days  
in Calgary last week.  
Mr. Ted Chiswell, Calgary, is  
spending three weeks in Vulcan re-  
lieving at the C.P.R. station.  
Miss Lucille Severns and Miss  
Combs spent Friday in Calgary at-  
tending the fair and Cowboy dance.  
Miss Gladys Hansen was also a  
Calgary visitor for a few days last  
week.  
Mr. B. Rennells, Mrs. Brooks, Miss  
Queenie Daines and Mr. David  
Brooks spent a few days in Calgary  
last week.  
Mrs. Bill Recor returned home on  
Sunday after spending a month's  
vacation with her parents at Coeur  
d'Alene, Wash.  
Mr. and Mrs. Howard Andrews and  
Daughter, also Miss Florabel Mun-  
day, of Strathmore, have been visi-  
tors at the homes of Mr. and Mrs.  
Bert Andrews and Mr. and Mrs. Wil-  
fred Myles for the past two weeks.

### KIRKCALDY NEWS

Miss Kathleen Colwell is spending  
a few days in Blackie.  
Mr. Sydney Chilton, of Hythe,  
Peace River, has been spending a few  
days at the home of Mr. Frank Dunn.  
Miss Irene Snyder is spending a  
few days at the home of her sister,  
Mrs. Vanderberg, of Claresholm.  
Mr. Howard Conlin, of Calgary, is  
spending a week at the home of Mr.  
A. Roebuck.  
Mr. and Mrs. A. J. Maisiey and  
Lorne, Mr. and Mrs. Baldwin motored  
to Lethbridge on Sunday.  
Miss Marguerite Todd, who has  
been visiting in Seattle, has returned  
to her home at Kirkcaldy.  
Mr. and Mrs. John Fox left on  
Tuesday for Edmonton, where they  
will visit for a few days.  
Kirkcaldy was well represented at  
the Stampede. Some of those attend-  
ing were: Miss Edith Boose, Mr. and  
Mrs. Hagerman, Mr. Joe Myers, Mr.  
and Mrs. A. Roebuck and family, Mr.  
and Mrs. Clements, Mr. and Mrs.  
Dunn and family, Mr. Theodore and  
Jim Roebuck, Mrs. Robbie and sons  
Russel and Glen, Mr. and Mrs. J. Fox.

### WEDDING BELLS

Miss Zella Todd, daughter of Mr.  
and Mrs. W. J. Todd, and Mr. Wayne  
Brown, of Vulcan, were united in  
marriage at Nanton on Monday, July  
8th.

### AIR EXPANSION

From an experimental beginning  
but a brief while ago the Canadian  
air mail has expanded until the Do-  
minion has twenty services in opera-  
tion either in summer or winter or the  
year round, or to be immediately in-  
augurated. It is proposed during the  
present year to extend the carrying  
of mail by air from Eastern Canada  
to Winnipeg and then to within twenty  
miles of Banff, Alberta, to connect  
with the fast train to the Pacific  
Coast. Surveys are being conducted  
for a route through the mountains on  
to the Pacific coast and a complete  
trans-Canada aerial mail is practical-  
ly within sight.

As regards commercial aviation in  
Canada, a few statistics are most  
eloquent of the manner in which this  
has developed. There are now fifty-  
three firms operating aircraft in Can-  
ada, many of these being engaged in  
most unusual services from the fringe  
of civilization into the developing  
wilderness.

Airports continue to spring up all  
over the Dominion, foreshadowing  
over-widening activity. The Maritime  
Provinces have been much to the fore-  
front, with the organization of the  
Maritime Airways to operate aircraft  
throughout the territory and the pos-  
sible establishment of an aircraft  
manufacturing plant in the area.  
Saint John recently completed its air-  
port and Halifax has approved the ex-  
penditure of \$150,000 to provide such  
a facility. Airports, it is stated, are  
also assured for Moncton, Truro, and  
Charlottetown. Kingston, Ontario,  
recently set aside seventy acres for  
this purpose and has called for ten-  
ders for the construction of hangars.  
Drumheller in Alberta has decided to  
establish an airport, giving this strate-  
gically located point a definite place  
in the aero-nautical development of  
Western Canada.

### RED CROSS NEWS

Born, on Thursday, July 11th, to  
Mr. and Mrs. Jack Smith, a son.  
Miss Florence returned Sunday  
evening after having a nice trip over  
the Banff and Windermere Trail.  
The people of the district regret to  
hear of the serious illness of Mrs.  
Wheeler, sister of Mr. Ben Graham,  
and hope her operation is successful.  
Mr. and Mrs. Melvin Fulton and  
little son are spending the week at  
Spring Coulee with relatives and will  
visit Glacier Park before returning  
home.

Mrs. J. V. Henderson's many  
friends regret to hear of her being in  
the Arrowwood hospital, but hope she  
will soon be back in the district, im-  
proved in health.

The dry weather does not stop Red  
Cross people from celebrating. Among  
the Stampede visitors to Calgary  
were: Mr. Mart Jose and Mrs. Mil-  
lett, Mr. and Mrs. Clare Dunham, Mr.  
and Mrs. McKinnon, Mr. and Mrs. A.  
J. Fulton and little son, Mr. and Mrs.  
Hale, Mr. and Mrs. John Fulton and  
family, Mr. Willard Snow and two  
sons, Mr. C. A. Grundy, Mr. Eli Mc-  
Rae, Mr. and Mrs. Doane and son  
Dale, Russell and Harry Graham, Mr.  
and Mrs. Tom Love and family.

The Redland View W.I. held their  
meeting on July 10th. It being a  
house dress competition, Mrs. Martin  
and Mrs. Gold from Vulcan were out  
to act as judges. There were many  
nice dresses. In judging many things  
had to be considered: the kind of  
material that would wash well, the  
appearance as a house dress, as well  
as neatness. There were three that  
could not be decided on, Mrs. Roy  
Fulton's, Miss Lorena Richardson's  
and Mrs. Snow's. As a prize was to  
be given for the best, a card was  
drawn, Mrs. Snow being the lucky  
one.

Suggestions were given how we  
would entertain our neighboring In-  
stitutes the first part of next month.

Mrs. Martin gave a short talk on  
the conference to be held in August,  
and also gave a few hints on canning  
peas.

The afternoon was well spent and  
at the close a lovely lunch was served.  
Through some mistake our dance  
and ball game (which will be over  
when you read this) was omitted in  
last week's news, but hope everyone  
got to hear of it through telephone  
or posters.

### WEST NEEDS RAIN

Crop reports throughout Western  
Canada, indicate that most of the dis-  
tricts throughout the west are in need  
of rain. The extreme heat to the east  
has caused grain to deteriorate in  
quality. Generally, crops are not con-  
sidered as far advanced or as promis-  
ing as at this time last year. Coarse  
grains are little more promising than  
wheat. In Manitoba rain is most ur-  
gently needed. In Saskatchewan  
about half the country reports normal  
condition while in the other parts,  
rain is the cry.

Of the 236 stations heard from in  
Alberta 66 report sufficient moisture,  
and 170 need rain. Of these 170, 97  
need rain urgently while 32 report  
that rain now would be too late as  
crops are permanently damaged. Thir-  
ty report damage from hot wind, 16  
report wheat heading with grain only  
a few inches high. Twenty-eight re-  
port frost damage and twelve heavy  
weed growth.

### NOTICE TO CREDITORS AND CLAIMANTS

In the estate of Marie Louise Demers,  
late of Vulcan, Alberta, Deceased.  
NOTICE IS HEREBY GIVEN that  
all persons having a claim upon the  
estate of the late Marie Louise De-  
mers, who died on or about the 3rd  
day of February, 1929, are required to  
send to the undersigned Solicitor for  
the Administrator, by the 6th of  
September, 1929, a full statement,  
duly verified, of their claims and any  
securities held by them and that after  
that date the Administrator will dis-  
tribute the assets of the deceased to  
the parties entitled thereto, having  
regard only to the claims of which  
notice has been so filed or brought to  
his knowledge.

DATED this 15th day of June,  
1929, at Vulcan, Alberta.

L. H. STACK, Solicitor for  
PIERRE COUTURE,  
The Administrator.  
July 18-31-c

### REID HILL NEWS

Mr. and Mrs. W. Bittorf and family  
motored to Edmonton last week where  
they are the guests of the formers brother.  
Among those touring the Banff Wind-  
ermere Highway are: Mr. and Mrs. W.  
Mack, Mr. and Mrs. G. McKay and fam-  
ily, Mr. and Mrs. O. Hickman and family.  
Mrs. Ingram of London, Ont., who has  
been visiting Mr. and Mrs. J. McKay and  
Mr. and Mrs. Douglass for the past two  
weeks leaves for her home Saturday.  
Little Cora Miles met with an accident  
last week when she fell from a stool and  
broke a bone in her elbow. It is mending  
splendidly.  
Mr. and Mrs. Marshall McLean of Cole,  
Wash. were the guests of Mr. and Mrs.  
W. McLean last week.  
Mr. and Mrs. J. McKay have as their  
guests for the summer holidays, their  
daughter Edith, Mrs. McKays sister of  
Toronto and her mother of London, Ont.

### ENSIGN NEWS

Mr. S. Brims and Miss Elizabeth  
Brims visited with Mr. and Mrs. W.  
McFadden at High River, Wednes-  
day.  
Mr. J. Williams, Miss Beth Holden  
Mr. and Mrs. A. S. Finlayson were  
visitors to Turner Valley and Cal-  
gary Stampede.

Error of Ensign school report.

Reni Couture, third Albert Masse.  
Mr. George Pringle from Macleod  
is clerk at Mr. Bourques Ensign  
store.

Mr. and Mrs. P. S. Bourque were  
visited Friday by his brother-in-law,  
Mr. D. Thibert, who was accom-  
panied by Mr. J. Johnson and Mr.  
B. Maxwell, all of whom were from  
Brooket.

Mr. P. Bourque form Abbot, Sask.  
is visiting with his brother, Mr.  
Philip Bourque.

Mr. and Mrs. McDonald of Toronto  
are visiting with his sister, Mrs. D.  
McIntyre.

Mr. W. Paton, Miss C. Morin, Mr.  
and Mrs. W. Brown, left Thursday  
for an auto trip to Banff.

Mr. and Mrs. E. Hanson, Henry  
and Harold left for Banff Monday.  
Ensign church services held every  
Sunday at the school house, S.S. at  
2:30 p.m. by Mrs. A. Smith, Preach-  
ing at 3 p.m. by the Rev. J.J. Farqu-  
har.

Bible services were held at the  
home of Miss Williams. The Rev. J.  
J. Farquhar conducting the services,  
all are cordially invited to attend  
these interesting studies.  
Mrs. K. Tolman and Emily with Mrs.  
T. Kelly and children from Arrow-  
wood were visitors last Tuesday at  
Mrs. S. Archambault and Mrs. L.  
Jackson.

### PAVED ROADS

An article in an American Maga-  
zine urging the necessity for more  
paved roads, to relieve the congestion  
on primary roads, strikes at the root  
of conditions which also exist in this  
country. It says: "That we could  
use more and better roads all will  
agree, but our civil machinery for pro-  
ducing them is cumbersome. Roads  
are still too much a local matter.  
There are almost as many ideas about  
roads, their material and construction  
their marking and mapping, and  
especially whether or not they should  
be built as there are states, countries  
and townships—all with a finger in  
the pie. And they are too much at  
the mercy of local opinion not con-  
cerned with country wide highway  
programme.

As a matter of fact there are 20,000  
000 cars in use in United States (the  
whole population can ride at once)  
and only 575,000 miles of paved roads  
to ride on. The road program has not  
kept pace with the use of motor cars.  
Even in our own Alberta, traffic on  
primary roads is congested and hazard-  
ous, mainly because the infinitely  
prettier secondary roads, which people  
would prefer to use, are not fit  
for motor travel.

Roads are no longer a local, leisurely  
matter. They are of primary con-  
cern to every tax payer in town and  
country. It is to the interest of the  
Dominion government the Provincial  
government, the motor companies, the  
gas and oil companies, as well as pri-  
vate individuals, that the money spent  
on roads be spent to advantage; that  
permanent roads be built; that some  
uniform substantial method of road  
making be adopted, and that it all be  
done right speedily.

opening night of Chataqua.

### BIRD SANCTUARIES

Need for more bird sanctuaries in Al-  
berta is a matter which will be impres-  
sed upon the provincial and federal  
governments, by the Fish and Game  
Association. It was decided to recom-  
mend to the provincial government  
that the partridge season run this  
year from October 1 to November 15.  
In view of the great number of prairie  
chicken in the north, it was decid-  
ed to recommend that there be an open  
season for these, north of the Red  
Deer from October 1 to 15, with a  
bag limit of five a day.  
Open season for ducks recommen-  
ded to remain as in 1928.

## SMITH COAL

Lee Smith again takes pleasure in  
announcing to the public of the  
new way of getting coal at the  
Mine. We have just completed a  
50 ton Elevator bin, also a scale  
to give you correct weight. I again  
take pleasure in telling you all to  
come down and try the new way  
of handling coal. No weighing, no  
short weight, but snappy serving.  
The Coal of Quality.

**Lee Smith, Manager.**
